EMPOWERING ORGANISATIONS TO DRIVE PRODUCTIVITY

The GC Index® is the organimetric that empowers organisations to drive productivity and achieve results by creating game-changing teams and cultures.
The GC Index® enables organisations to create a language and framework that aligns the impact and contribution of all their people to business processes and outcomes.

What is The GC Index®?

The GC Index® is an Organimetric (organisation metric). It measures the real and potential impact that everyone can make to a role, team and/or organisation.

The GC Index® augments and complements existing HR and Talent data. This enables organisations to drive better people decisions based upon the impact and contribution their people can actually make. It enables organisations to:

- Gain unique insight on people impact
- Improve business outcomes
- Create a common language across the business
- Increase individual performance
- Increase team performance
- Make more informed and accurate people decisions
The GC Index® identifies how people best make their impact and contribution

The GC Index® Organimetric provides a common language and framework that identifies five key ways (we call them proclivities) in which people can make an impact to a role, team and/or organisation.

It is a language and framework that delivers a foundation of impactful collaboration throughout an entire organisation across all levels. Truly driving an inclusive workforce and culture.

Everyone can make a positive impact:

The GC Index® provides an inclusive framework that shows how everyone’s contribution and impact is valued. This results in game-changing teams, cultures and powerful productivity enhancements.

Analysis by Jouni Forsman (Gartner) and Ian Keene (Gartner)

Why Cool: As discussed in “Market Trends: Successful CSP Digital Business Transformation Is Guided by Clear and Measurable Business Value,” culture and people issues are at the core of all CSP digital business transformation projects — yet are notoriously difficult to measure. The GC Index® offers an innovative framework for measuring and improving organizational culture. It focuses on finding out how individuals prefer to contribute — and therefore have their biggest impact — while feeling satisfied in their roles. A delicious example of fresh thinking is how The GC Index considers its own organization. For example, there is no CEO but a “Chief Polisher.”
